Working Together: The Essential Role of Public Opinion Research in Collaborative Science

May 15 - 17, 2024

Call for Papers, Methodological Briefs, Posters, Panels, and Roundtables

Submission Deadline: Wednesday, November 15, 2023 at 11:59 p.m. ET

The American Association for Public Opinion Research (AAPOR) is thrilled to announce that its 79th Annual Conference will be held at the Hilton Atlanta on Wednesday, May 15 through Friday, May 17, 2024. Don't miss this opportunity to participate in the premier forum for the exchange of advances in public opinion and survey research.

Over the past several years, AAPOR has celebrated coming together, been challenged with disrupting public opinion research in the pursuit of equity and inclusion, and focused on building collaborative partnerships and working together. In 2024, we will build on these themes to focus on impacting communities through the engaged scholarship work done by public opinion and survey research methods scholars and practitioners.

Public opinion and survey research impacts our communities in a variety of important ways. For example, this research plays an important role in democracy and governance by measuring the opinions and concerns of all members of communities. It is also a key source of information for developing and evaluating policies at all levels of government in multiple domains, including health, the environment, transportation, finance, disaster preparedness, social services, justice, and others. Finally, survey and public opinion research provides important data about disparities and inequity that can be used to improve diversity, equity, and inclusion. For the 2024 conference theme, we will be spotlighting the many ways that public opinion and survey research is having an impact on communities.

To this end, AAPOR members will be encouraged to submit abstracts that feature all the ways that surveys and public opinion research impact communities. Abstracts should include a (brief) description of the impact of the work in addition to relevant information about the research.

We look forward to this opportunity to learn about how the important work being done by AAPOR members impacts communities and celebrate the role of engaged scholarship.

Submissions: The proposal submission form is unique to each submission type but generally requests author contact information, title, presentation track, keywords describing the content of the presentation, and an abstract of no more than 300 words. To promote broad conference participation, an individual may not submit more than three proposals as first author, regardless of the proposed format of the submission. For specific descriptions and requirements for each proposal type, as well as to submit your proposal, please use the expandable sections below.

All abstracts should be submitted electronically by Wednesday, November 15, 2023, at 11:59 p.m. ET.

Space on the program is limited. There will be some individual submissions that cannot be integrated into a session and will, unfortunately, not be accepted. Authors of individual papers have a greater chance of acceptance if they are also willing to be considered for a methodological brief or poster.

Additional details and instructions for submitting an abstract for the 2024 AAPOR Conference can be found on the AAPOR website.

Inquiries: Questions concerning the AAPOR conference or the proposal submission process should be directed to AAPOR Executive Director, Tristanne Staudt, tstaudt@AAPOR.org.
